Internship Offer Letter

Date: 03/01/2024

CA/AA/35872

Dear Muhammad Arham,

Welcome to Afterflea!

We are delighted to extend an offer to you for the position of a Full Stack Engineer Intern. We appreciate your passion for the development and application of AI technologies and are excited to see how your skills will contribute to our mission. Your 90 day engagement period can begin as early as March 4th ending the week of June 3rd.. We will give emphasis to you learning new skills with a deeper understanding of AI concepts through hands on applications of the knowledge you'll gain as an intern.

In your role as an Full Stack Engineer, you will be instrumental in developing scalable, robust APIs, and efficient backend systems using technologies like NoSQL databases (MongoDB, Firebase), Express.js, Next.js, Python, and frameworks such as Django Rest and Flask. You will be joining an ambitious project to democratize AI for social media networking.

We strive to cultivate a culture that promotes open dialogue, teamwork, and collaboration. We expect you to uphold the interests and objectives of Afterflea and maintain the confidentiality of our intellectual property including all work, creations, or innovations produced during your tenure. These shall be considered the exclusive property of Afterflea.

We have confidence in your potential to make significant contributions to our growth. If you have any questions or need further clarification, please feel free to reach out.

We look forward to seeing you excel!

Best Regards,

Muhammad Arham
